

Adequan

Caution: Federal law restricts this drug to use by or on the order of a licensed veterinarian.

For Dogs, Adequan Canine is an injectable glycosaminoglycan recommended for the treatment of canine osteoarthritis and for the relief of pain associated with it. For more information, please click [Adequan Canine for Dogs](#).

For horses, Adequan is recommended for the treatment of non-infectious degenerative and/or traumatic joint dysfunction and associated lameness of the carpal joint horses. For more information on horse joints, click on 1) [Ideal Horse Joint Treatment](#), 2) [FDA approved Horse Joint Treatments](#), 3) [Why Not all equine treatments are equal?](#)

For complete line of Adequan Pet Meds, click here [Adequan](#)
